THE PLATFORM

And Preamble Adopted at Omaha July 4, 1892.

PREAMBLE.

Assembled upon the 116th anniversary of the declaration of independence, the People's party of America, in their first national convention, blessing upon their action the blessing of Almighty God, puts forth in the name and on behalf of the people of this country the following preamble and declaration of principles:

The conditions which surround us best justify our operation; we meet in the midst of a nation brought to the verge of moral, political and material ruin. Corruption dominates the ballot-box, the legislature, the congress, and touches even the ermine of the bench. The people are demoralized, most of the States have been compelled to isolate the voters at the polling places to prevent universal intimidation or bribery. The newspapers are largely subsidized or muzzled; public opinion silenced; business prostrated; our homes covered with mortgages; labor impoverished and the land concentrating in the hands of the capitalists. The urban workmen are denied the right of organization for self-protection; imported pauperized labor beats down their wages; a hireling standing army, recognized by our laws, is established to shoot them down; and they are rapidly degenerating into European conditions. The fruits of the toil of millions are boldly stolen to build up colossal fortunes for a few, unprecedented in the history of mankind; and the possessors of these, in turn, despise the republic and endanger liberty. From the same prolific womb of governmental injustice we breed the two great classes—tramps and millionaires. The national power to create money is appropriated to enrich bondholders. A vast public debt, payable in legal tender currency, has been funded into gold bearing bonds, thereby adding millions to the burdens of the people. Silver, which has been accepted as coin since the dawn of history, has been demonetized to add to the purchasing power of gold by decreasing the value of all forms of property as well as human labor, and the supply of currency is purposely abridged to fatten usurers, bankrupt enterprise, and enslave industry. A vast conspiracy against mankind has been organized on two continents, and it is rapidly taking possession of the world. If not met and overthrown at once it forebodes terrible social convulsions, the destruction of civilization, or the establishment of an absolute despotism. We have witnessed for more than a quarter of a century the struggles of the two great political parties for power and plunder, while grievous wrongs have been inflicted upon a suffering people. We charge that the controlling influences dominating both these parties have permitted the existing dreadful conditions to develop without serious efforts to prevent or restrain them. Neither do they now promise us any substantial reform. They have agreed together to ignore, in the coming campaign every issue but one. They propose to drown the outcries of a plundered people with the uproar of a sham battle over the tariff, so that the capitalists, corporations, national banks, rings, trusts, watered stock, the demoralization of silver and the oppressions of the usurers may all be lost sight of. They propose to sacrifice our homes, lives and children on the altar of mammon; to destroy the multitude in order to secure corruption funds from the millionaires.

Assembled on the anniversary of the birthday of the nation and filled with the spirit of the grand generation who established our independence, we seek our independence, we seek to restore the government of the people to the hands of "the plain people," with which class it originated.

We assert our purposes to be identical with the purposes of the national constitution, "To form a more perfect union, establish justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty for ourselves and our posterity."

We declare that this republic can only endure as a free government while built upon the basis of the whole people for each other and for the nation that it cannot be pined to together by bayonets; that the civil war is over, and that every passion and resentment which grew out of it must die with it, and that we must be in fact, as we are in name, one united brotherhood of free men.

Our country finds itself confronted by conditions for which there is no precedent in the history of the world; our annual agricultural productions amount

to billions of dollars in value, which must within a few weeks or months be exchanged for billions of dollars of commodities consumed in their production; the existing currency supply is wholly inadequate to make this exchange; the formation of combinations and rings and the impoverishment of the producing class. We pledge ourselves that, if given power, we will labor to correct these evils by wise and reasonable legislation in accordance with the term of our platform. We believe that the powers of government—in other words, of the people—should be expanded (as in the case of the postal service) as rapidly and as far as the good sense of an intelligent people and the teachings of experience shall justify, to the end that oppression, injustice and poverty shall eventually cease in the land.

While our sympathies as a party of reform are naturally upon the side of every proposition that will tend to make one intelligent, virtuous and temperate, we nevertheless regard these questions important as they are as secondary to the great issues now pressing for solution, and upon which not only our individual prosperity, but the very existence of free institutions depend; and we ask all men to first help us to determine whether we are to have a republic to administer, before we differ as to the conditions upon which it is to be administered; believing that the forces of reform this day organized will ever cease to move forward until every wrong is remedied, equal rights and equal privileges securely established for all men and women of the country.

We declare therefore, First—That the union of the labor forces of the United States this day consummated shall be permanent and perpetual, may its spirit enter into all hearts for the salvation of the republic and the uplifting of mankind.

Second—Wealth belongs to him who creates it, and every dollar taken from industry without an equivalent is robbery. "If any man will not work, neither shall he eat." The interests of rural and civic labor are the same; their enemies are identical.

Third—We believe that the time has come when the railroad corporations will either own the people or the people must own the railroads, and should the government enter upon the work of owning and managing any or all railroads, we should favor an amendment to the constitution by which all the property engaged in the government service shall be placed under a civil service regulation of the most rigid character, so as to prevent the increase of the power of the national administration by the use of such additional government employees.

First—We demand a national currency, safe, sound and flexible, issued by the general government only, a full legal tender for all debts, public and private, and that without the use of banking corporations a just, equitable and efficient means of distribution direct to the people at a tax not to exceed 2 per cent, be provided, as set forth in the sub-treasury plan of the Farmers' Alliance, or some better system; also, be payments in discharge of its obligations for public improvements.

a. We demand free and unlimited coinage of silver.

b. We demand that the amount of circulating medium be speedily increased to not less than \$50 per capita.

c. We demand a gradual income tax.

d. We believe that the money of the country should be kept as much as possible in the hands of the people, and hence we demand all National and State revenue shall be limited to the necessary expenses of the Government economically and honestly administered.

e. We demand that postal savings banks be established by the Government for the safe deposit of the earnings of the people and to facilitate exchange.

Second—The land, including all the natural resources of people and should not be monopolized for speculative purposes, and alien ownership of land should be prohibited. All land now held by railroads and other corporations in excess of their actual needs, and all lands now owned by aliens, should be reclaimed by the Government and held for actual settlers only.

Third—Transportation being a means of exchange and a public necessity, the Government should own and operate the railroads in the interest of the people.

a. The telegraph and telephone, like the post office system, being a necessity for transmission of news, should be owned and operated by the Government in the interest of the people.

After submitting the foregoing the committee on resolutions unanimously agreed to report the following to the convention at the night session and it was adopted:

Whereas, other questions have been presented for our consideration, we hereby submit the following, not as a part of the platform of the People's Party, but as resolutions expressive of the sentiment of this convention.

First—Resolved, That we demand a free ballot and a free count in all elections, and pledge ourselves to secure it to every legal voter without federal intervention through the adoption by the States of the unperverted Australian or secret ballot system.

Second—Resolved, That the revenue derived from a graduated income tax should be applied to the reduction of the burden of taxation now resting upon the domestic industries of this country.

Third—Resolved, That we pledge our support to fair and liberal pensions to ex-union soldiers and sailors.

Fourth—Resolved, That we condemn the falacy of protecting American labor under the present system, which opens our ports to the pauper and criminal classes of the world, and crowds out our wage earners; and we denounce the present ineffective laws against contract labor, and demand the further restriction of undesirable emigration.

Fifth—Resolved, That we cordially sympathize with the efforts of organized workmen to shorten the hours of labor, and demand a rigid enforcement of the existing eight-hour law on government work, and ask that a penalty clause be added to the said law.

Sixth—Resolved, That we regard the maintenance of a large standing army of mercenaries, known as the Pinkerton system, as a menace to our liberties, and we demand its abolition; and we condemn the recent invasion of the territory of Wyoming by the hired assassins of plutocracy, assisted by federal officials.

Resolved, That we commend to the favorable consideration of the people, and the reform press the legislative system known as the initiative and referendum.

Resolved, That we favor a constitutional provision limiting the office of president and vice-president to one term, and providing for the election of senators of the United States by a direct vote of the people.

Resolved, That we oppose any subsidy or national aid to any private corporation for any purpose.

DR. LEMON.

How he Treats His Patients.

Do you want to know the name of one of the best all around household doctors, and certainly the cheapest that can be found in any country? It is Dr. Lemon.

Here are some of the things Dr. Lemon will do for you if you give him the chance:

Squeeze him into a glass of water every morning and drink him with very little sugar. He will keep your stomach in the best of order and never let Dyspepsia whom he hates cordially, get into it.

If you have dark hair and it seems to be falling out, cut a slice off the doctor and rub him on your scalp. He will stop that little trouble promptly.

Squeeze him into a quart of milk and he will give you a mixture to rub on your face night and morning and get a complexion like a princess.

Pour him into an equal quantity of glycerine and rub your hands with the mixture before going to bed. If you don't sleep with gloves on, it is better still, and helps the doctor considerable in his task of whitening your hands.

In the morning wash your hands thoroughly in warm water and apply the doctor again, pure, but only a few drops of him this time. You must not keep this up too long, or your hands will show such a dazzling whiteness as to make all the other young ladies in the vicinity jealous.

If you have a bad headache cut Dr. Lemon into slices and rub the slices along your temples. The pain will not be long disappearing—or at least crowing easier to bear.

If a bee or an insect sting you clap a few drops of the doctor to the spot and you will find yourself the better for it.

If you have a troublesome corn the doctor can again be put to a good account by rubbing him on the toe after you have taken a hot bath and cut away as much as possible of this troublesome intruder.

Besides all this the doctor is always ready to sacrifice himself in the cause of Russian tea—slice him in without sugar—or in the preparation of old fashioned lemonade, than which no drink is more wholesome.

Altogether Dr. Lemon is an individual few people can afford to get along without.

WOMAN'S SPHERE.

"Many talk about woman's sphere. As though it had a line in earth or heaven. There's not a place in earth or heaven. There's not a task to mankind given. There's not a blessing or a woe. There's not a life, a death, or birth. That has a teacher's weight of worth. Without a woman in it."

WHAT A WOMAN CAN DO. (From a Sarcastic Exclamation.)

She can come to a conclusion without the slightest trouble of reasoning on it, and no sane man can do it.

Six of them can talk at once and get along first rate, and no two men can do that.

She can safely stick pins in her dress while he getting one under his thumb nail.

She is as cool as an cucumber in half a dozen dresses and skirts while a man will sweat and fume and fuss in one loose shirt.

She can talk as sweet as peaches and cream to the woman she hates, while two men would be punching each other's heads before they had exchanged ten words.

She can throw a stone with a curve that would be a fortune to a base ball pitcher.

She can say "no" in such a low voice that it means "yes."

She can sharpen a lead pencil, if you give her plenty of time and plenty of lead pencils.

She can dance all night in a pair of shoes two sizes too small and enjoy every minute of the time.

She can appreciate a kiss from her husband seventy years after the marriage ceremony is performed.

She can go to church and tell you what every woman in the congregation had on, and in some rare instances can give you some faint idea of what the text was.

She can walk half the night with a colicky baby in her arms without once expressing a desire to murder the infant.

She can do more in a minute than a man can do in an hour, and do it better.

She can drive a man crazy in twenty-four hours, and then bring him to paradise in two seconds, by simply tickling him under the chin, and there does not live the mortal son of Adam's misery who can do it.

DON'T MARRY HIM.

You have heard the old refrain a thousand times, "Don't marry a man if he drinks;" and this direction is well worth heeding, even if it has about it the appearance and flavor of a chestnut.

But all sin isn't corked up in the whiskey bottle, by any means, and there are other men I wouldn't marry but sides the fellow whose breath too often smells of cubeb and cloves.

Don't marry the young man who leaves his mother to find her way home as best she can on a dark night, while, without a word or thought of apology to the old lady, he looks after you.

One of these days, when the novelty is worn off he will leave you to go alone as best you can, while he seeks his selfish enjoyment in the club.
